Dear Sir or Madam:

This letter is to inform the EPA that between the dates of 09/19/2001 to 09/28/2001, RCN Telecom Services of Illinois had a crew working in the Streeterville area. The work which was performed by the contracting firm of L.C. of Illinois, consisted of entering an existing RCN manhole located at 544 N. McClurg CT, for the purpose of splicing cable. Since no subsurface soil were uncovered, RCN or its representatives at the job, L.C. of Illinois, conducted no testing of any kind. It is RCN'S desire to comply with all EPA rules for this and or any area in the city of Chicago, and its neighboring suburbs. Any further inquiries should be directed to the care of Art Gaskins, at 312-617-8954.

Sincerely,

A handwritten signature in black ink, appearing to read 'Axel Perez', with a stylized flourish at the end.
